

Your Big Sail Holiday is just around the corner...!

Girls, grab the essentials - think quality not quantity. Boys, stick in the deck shoes and leave those speedos at home! Still wondering what to bring? Here's our suggestions for the essentials guaranteed to make your week great!

Suncream – even if you don't usually use it. Could be in full glare of the sun for 12 hours, plus reflection from the sea intensifies burning.

Wash-kit

Any personal medication

Bikini/board shorts

Swim towel

Deck shoes or converse

Flip-Flops

Shorts

T-shirts & polos

Warm Fleece or spray/windproof jacket - evenings on the water can get chilly!

Comfortable lightweight trousers/jogging bottoms

Girls - summery dresses

Boys - couple of shirts

Small torch/flashlight

Passport & EHIC card

Sunglasses

If possible - no hard/rigid wheelie cases. There's limited space on board - you'll be sharing a small living & sleeping space with your bag, so don't bring too much or you'll have nowhere to sleep! Something like a duffel bag is ideal!

NOT Required: Sleeping bags - sheets & bedding are provided!

ELECTRONICS

Power on the boats comes from a 12V socket, just like in a car for the cigarette lighter socket. These can't be used to power heavy usage electronics or they can melt the electrics. This means NO STRAIGHTENERS and NO HAIRDRYERS whilst on board, although you will be able to use them when we are attached to 'shore power' in some marinas - sorry girls, you'll just have to go for a natural windswept look for some of the time!

Also on power - best way to charge a phone will be to bring a car charger with a USB lead. But bear in mind there will be probably 1 or 2 sockets, with 7-8 people wanting to charge stuff. There won't be signal or wifi coverage 100% of the time anyway! There are a couple of standard european round-pin sockets on board if you need to charge things like cameras & phones, or use a hairdryer, but these only work when we are in a marina & plugged into the mains. Any questions - email info@thebigsail.com !
